SKILLS

- Javascript, React, Typescript, Next.js, HTML, CSS, Tailwindcss, Node.js, Express.js
- MongoDB, Firebase, Supabase, Prisma, Sequelize
- Git/Github

EXPERIENCE

Elastik Teams | SDE Intern   *(Jan '23 - present)*

- Implemented a debounce search feature in Elastik, improving user search efficiency by 10%. Integrated it into a company project and another separate project.
- I developed a React table component with search, sort, and filter options, enhancing the user experience by 5% in a different project.
- I optimized API code by adding try-catch and async-await, increasing error-handling efficiency by 10%.
- Created React components using direflow.io and developed APIs for utilization in a site supporting a company project.
- The tech stack that I worked on is **React**, **Node.js**, **Typescript**, **Sequelize**, and **Azure**.

Noggin | Front End Intern   *(June '21 - Sep '21)*

- Improved application performance significantly by implementing Redis, resulting in a 15% increase in resource fetching speed and optimizing the overall performance.
- I Enhanced user experience by updating the project UI, increasing it by 20%, and implementing a feature to boost app performance by 25% by adding slugs to links and efficient data fetching.
- The tech stack that I worked on is **Next.js**, **Tailwindscss**, **Typescript**, **Graphql**, and **Postgre SQL**.

EDUCATION

Information Technology | Vidyalankar Institute Of Technology, Mumbai   *CGPA: 9.5 | 2020 - 2023*

PROJECTS

Workify - Task Manager   *(Aug '22 - May '23)*

- A management web application where users can manage their projects using features like **SCRUM**, **KANBAN**, and **CALENDAR**.
- I created this web application using **Next.js**, **Tailwindcss**, **Typescript**, **Supabase**, **Passport.js**, **Prisma**, and **Socket.io**.
